

Formative self-evaluation survey answered by the student

I. Evaluate your preparedness for the project itself.

- A. What are the strengths you bring to this project with respect to
 - 1. computer knowledge?
 - 2. math knowledge?
 - 3. biology knowledge?
- B. What are your apparent weaknesses as they apply to the project with respect to
 - 1. computer knowledge?
 - 2. math knowledge?
 - 3. biology knowledge?
- C. With respect to weaknesses, what have you and/or your mentor done to make up for them?
- D. Cite the courses you took as an undergraduate/graduate student that were helpful to your internship and explain why.
- E. Cite the SoCalBSI lecture/workshop topics that were helpful to your internship and explain why.
- F. What necessary background was completely lacking or inadequate in your preparation for your internship?

II. Comments on your work ethic

- A. Your responsibilities. Have you been
 - 1. Arriving at work on time?
 - 2. Putting in a full, wisely-spent workday?
 - 3. Responding to suggestions and criticisms positively?
 - 4. Asking yourself to adjust to the individualities of others so that you can interact productively with all persons in the workplace?
 - 5. Taking initiative?
 - 6. Using good judgment about who, when and how frequently to ask for help?
 - 7. Studying on your own time to make up for deficiencies?
- B. Your mentor's responsibilities. Has your mentor
 - 1. Made clear his/her expectations with respect to
 - a. the project?
 - b. the workplace "rules"?
 - 2. Provided help when you needed and asked for it?

III. Please provide any additional comments you feel would be helpful at this time. Include issues you would like to see addressed by subsequent evaluations.
